

# MASTERPEACE

## CABERNET SAUVIGNON

### masterpeace

This Cabernet opens with an inviting cigar-box nose, layered with subtle earthy spice and a touch of cedar, immediately hinting at its depth and sophistication. In the glass, it shows a vibrant crimson red colour that captures the eye and sets the stage for what follows. The palate is richly fruited, dominated by classic blackcurrant notes that mingle seamlessly with wild red berry undertones, creating both brightness and complexity. The tannin structure is present yet refined, mild and almost silky in texture, offering just enough grip to frame the fruit without overwhelming it. Gentle hints of spice and oak provide added nuance, carrying through to a smooth, elegant finish. Balanced and versatile, this Cabernet shines alongside food, with roast beef making a particularly perfect pairing, as the wine's fruit and tannin structure complement the richness of the dish beautifully.
